Following on from that, how to keep your kitty off the Christmas Tree...

A part of the forest has suddenly appeared in the living room. No wonder cats react the way they do. They naturally want to climb it and even sit in it as they would an outdoor tree.

Cats are quick to sense a change of environment and they love to explore. All the new sights and sounds and smells are bound to cause excitement and a few problems. Here are some tips on setting up the

Christmas tree around cats.

Preventing Tree Climbing

Cats rarely get hurt from falling from Christmas trees. They are smart enough to get out of the way. But an active cat can do an incredible amount of damage. An energetic cat or kitten can topple a Christmas tree! Especially if there is more than one cat to join the fun. For households with cats, an artificial tree is the best choice. Though cats will still try to climb it, they aren't as

attracted as to the bark and scent of a real tree.

Let the tree sit a while before decorating. Give the cat time to explore. Treat the new tree like it is no big deal. The more excited the owner is the more enthused the cat will also become. Some cats will lose interest once their curiosity has been satisfied.

If the cat doesn't lose interest. Try placing tin foil around the trunk, as cats don't usually like to walk on it.

Presents for kitty? Or maybe for you...

Support the Cats Protection—no cash required!

Getting a new mobile phone this Christmas? Old mobile phones left forgotten in a draw? By recycling your old one you could easily help the cats protection league at the same time - and as I said, no cash donation required! They have already raised over £16,000 this year with the Greener Solutions scheme so it really does make a difference.

To recycle your phones simply send them in an envelope addressed to:
